

SPECTRUM INTERNET ASSIST

Charter's Low-Cost, High-Speed Broadband Service

CLOSING THE DIGITAL DIVIDE

- Earlier this year a Federal Communication Commission (FCC) report on broadband access found that 34 million Americans lack access to high-speed broadband in the home. According to the Pew Research Center, five million families in the U.S. with school-aged children don't have access to broadband in the home.
- Charter understands how important access to broadband is for all Americans and is working to connect its customers to the online resources and information they need to be successful in today's increasingly digital economy.

MAKING HIGH-SPEED BROADBAND MORE AFFORDABLE

- This superior service is three times faster than comparable industry offerings and is the only low-cost broadband service that meets the FCC's definition of 'high-speed' broadband.
- Charter's Spectrum Internet Assist will help ensure K-12 students of eligible low-income families have a chance to get ahead and low-income seniors on Supplemental Security Income can stay engaged in an increasingly digital culture.
