

# SHELBY COUNTY ZONING ATLAS

The Shelby County Zoning Atlas only shows zoning districts within unincorporated areas where zoning authority has been voted in by the residents of certain beats (areas shown here in pink).

If you need zoning for one of the municipalities, wholly or partially, within the county boundaries (areas shown here in blue), you will need to contact that particular municipality directly.

The areas shown here in yellow do not have any zoning.

To view one of the 47 sheets (Adobe Reader required to view), place your pointer over that particular sheet and click. You will then be re-directed to an 11" x 17" sized color PDF sheet which may be resized as needed to fit your printer.
