FOR IMMEDIATE RELEASE

On Tuesday, April 4, 2023, ALDOT will be working on the traffic signal at US Highway 280 and Shelby County Road 39 in Chelsea. The work will modify the traffic signal to allow the northbound and southbound approaches of Shelby County Road 39 to enter US Highway 280 separately rather than together as currently exists. The US Highway 280 approaches will remain unchanged. Law enforcement will be present and directing traffic in the intersection while the traffic signal is out of service. Motorists are urged to pay close attention to the new traffic pattern and to use caution when traveling through this intersection.
